Project Playhouse - Mashpee

The Valle Group recently designed, built and donated a playhouse for Housing Assistance Corporation's "Project Playhouse". The playhouse, which was designed to mimic a miniature store and features a working solar panel, is currently located at the Mashpee Commons. The building will be raffled off in August with proceeds going to benefit local children who receive services through Housing Assistance Corporations shelters and housing programs. For more information, visit www.projectplayhousecapecod.org
